

AE LIFELIGHT™

Where Quality Shines First™

The total emergency backup light ready under all conditions

The AE LifeLight™ is a flashlight, divelight, searchlight, and emergency light all in one. Using 3-standard AA batteries it produces 270+ lumens for 1-2 hours, gradually decreasing to 80 lumens at 72 hours, which is enough to read a map, find your way along a path or attract attention. Installing lithium batteries the LifeLight™ can be stored for almost ten years making it an ideal backup emergency light.

Triple O-ring sealed it is pressure tested to 200 meters (600') depth. Simply twist the body on the head to turn it on and off. No mechanical or electronic switch to break. It is strong enough to be run over by an automobile.

The light head is machined aerospace aluminum, Mil-Spec hard anodized and the body is Delrin® Acetal Resin (POM), the same as used in automotive engine gears making the LifeLight™ lightweight, Indestructible and environmentally sensitive (ROHS compliant).

The LifeLight is rated Class 1, Division 1 group A-G for hazardous locations. We are so confident of its construction, it comes with a LIFETIME WARRANTY. If it wears out, stops working, or you break it, we will fix or replace it free of charge.

Specifications:

Diameter: 1.18 in. (29.97 mm)

Length: 6.3 in. (160.02 mm)

Weight: 3.53 oz. (100 gm)

Beam divergence: 12 degrees

Kelvin Color temperature: 5500

Lumen output / Run time: *270 lumens for 1-2 hrs., 180 lumens 3-5 hrs., 80 lumens 48-72 hrs., even after one week of constant use, there is enough light to read a map or attract attention.

Battery: Standard AA batteries. With Lithium battery storage up to 10 years

LED: Cree w/proprietary reflector/accumulator

Pressure depth: 600 ft. (200 meters)

Twist on/off

Triple seals on light head

6061 aircraft grade black anodized billet aluminum head, POM handle. Strong enough to be run over by a car!

Okay for out of water use

Limited lifetime warranty

*(with fresh batteries)
